

*The Jamaica Bay Institute Brown Bag Lunch Series presents*

# **“Plight of the Piping Plover at Breezy Point”**

**Tuesday, August 12th, Noon - 1PM  
Fort Tilden, Breezy Point  
Building #1 - Conference Room**

Accounts of this years nesting season:

- Why are these birds federally protected?
- Where do they nest along the Breezy Point Tip?
- What are the struggles in protecting these birds and ensuring their nesting success?
- Is Gateway management contributing to the ultimate recovery of the piping plover?

**Presented by Matt Greenbaum and Amelia Moore.  
Columbia University students who participated in the  
2003 Piping Plover Management Program  
The internship was sponsored by The Jamaica Bay Institute and  
Wildlife Trust International.**
